## SHRINK'S OUR LINK TO TALK SHOW CIRCUIT

**Bill  
Husted**

Notice how weird the people are getting on daytime talk shows? Scarier still, notice that they're looking kinda familiar?

Well, they should. They're your neighbors.

Local singles shrink **Carolyn Bushong** is in the business of

supplying the multitude of syndicated talk

shows with guests and experts. She is not paid by the shows or the guests. The experts, however, do pay Bushong a fee.

Bushong is currently booking one or two shows a week out of her Denver office.

The wily advice dispenser is just back from playing expert herself on *Danny!*, the new yak-fest hosted by *Partridge Family* wise-guy **Danny Bonaduce**. Titled *Older Women and Younger Men*, the show will be aired locally on KDVR-Channel 31 at 11 a.m. today.

"I dated a guy who was 15 years younger than me once," Bushong says. "It was a lot of fun."

Bushong has booked guests and experts for shows such as *Charles Perez*, *Rolanda*, *Montel Williams*, *Donahue*, *Jenny Jones*, *Gabrielle*, *Gordon Elliott*, *Mark Walberg* and others too odd-ball to mention.

Denver guests have shared their inner-most secrets on such subjects as *Using Your Looks To Get What You Want*, *My Mate Lets Me Date*, *Pregnant and Partying*, *Teen-age Girls Who Hate Their Parents*, *Sex With Your Ex*, *Promiscuous Parents*, *Summer Romances* and *One-Night Stands*, *My Friend Betrayed Me*, *Men Who Love*

*Women with Big Breasts*, *I'm In The Sex Industry* and *My Mate Disapproves*, and *Men Who Use Hookers*.

For the record, I have not appeared on any of these shows — except *Pregnant and Partying*. What a weekend!

To book the show dubbed *Using Your Looks To Get What You Want*, Bushong went into Chinoook Tavern, the popular Cherry Creek singles bar, and approached beautiful people 'til the roster was full. Other hopeful guests and self-promoting experts can call her at 1-800-548-1888.

So why do people air their very dirty laundry on TV?

"Sometimes to meet the star," Bushong explains. "Sometimes they just want to go to Chicago, New York or L.A. And many times they are convinced that they'll actually get some psychological help — but that's

seldom true."
